

Flight Summary

Review all your selected completed checklists below.

Flight Log Information

Date	Pilot(s) / Observer(s)	Start Time	End Time	Location
2025-05-22	Ron Treleaven / N/A	14:00	15:00	44.1116, -78.9186

1.3 Micro Pre-Flight

- ✓ Micro Drones Pre-Flight Checklist
 - ☐ If flying near airports or heliports, fly below 30 m AGL when possible.
 - ☐ If flying in Controlled Airspace, fly below 30 m AGL.
 - ☐ If near military aerodrome, fly carefully and ideally below 30 m AGL.
 - ☐ If in CYR Class F Zone, obtain permission from controlling agency.
 - ☐ Avoid established aerodrome patterns.
 - ☐ Check for temporary flight restrictions (NOTAMs, apps).
 - ☐ Visually and audibly monitor for other aircraft.
 - ☐ Watch for obstacles: buildings, wires, trees, etc.
 - ☐ Avoid restricted zones (e.g., emergencies, wildfires).
 - ☐ Get landowner permission for takeoff/landing in parks.
 - ☐ Check weather and forecast.
 - ☐ Ensure Kp index under 4.
 - ☐ Avoid dusty environments.
 - ☐ Determine safe range based on site/weather/battery.
 - ☐ Keep bystanders clear during take-off and landing.
 - ☐ Do not fly over crowds.
 - ☐ Ensure crew and involved parties are briefed.
 - ☐ Check for physical damage.
 - ☐ Inspect propellers.

- ☐ Verify full battery charge.
- ☐ Ensure attachments are secure and gimbal guards removed.
- ☐ Install micro-SD card if recording.
- ☐ Ensure clear, level launch site.
- ☐ Crew must be unimpaired and rested.
- ☒ Brief all crew on flight plan.
